The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations  
H-307, the Capitol  
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Water System Improvements - Phase 2 in fiscal year 2025. The entity to receive funding for this project is the Village of Mexico. The funding would be used build improvements to the existing water system including replacement of aged water distribution mains and appurtenances, replacement of service laterals from the watermain to the buildings, new meters and meter reading equipment, development of a new well, construction of solar panels at the water treatment plant site, and installation of an emergency generator at the Village office. The project is an appropriate use of taxpayer funds because the village has become a water supplier to multiple towns in the region and these improvements will safeguard the reliability of the potable water service.

The project has a Federal nexus because the funding provided is for purposes authorized by Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

CLAUDIA TENNEY  
Member of Congress
